LEG STRETCH

The lower leg frame is provided with a spring retractable adjustment function. Kick out the calf rest with your feet, the length for the user to stretch out his/her feet is dependent on his/her feet and the user stretches back his/her feet by spring force; it is suitable for the use by persons with different heights.

ZERO SPACE

Slide rail technology is adopted for lying down of the backrest frame to always make the backrest zero distance from the wall thus saving space to the greatest extent.

ZERO GRAVITY

The 135° and 118° zero-gravity angles that simulate spaceflight make the thighs and calves higher than the heart part of the body as if in a state of "weightlessness", making the spine free of pressure and achieving deep relaxation.

*The controller is on the left side of the product and the picture is the mirror image.

HUMAN HEALTH DETECTION

Detect the heart rate, blood oxygen and fatigue index of the human body comfortable match different crowd

The foot roller massage function is available for the feet bottoms. Three sets of rollers roll to massage the roots of the toes; rolling and scraping massage is available for the foot arch and heels.
